Digestinol Review

Is Digestinol a Scam?

No complaints are found on consumer complaints websites, but some consumers have complained about the ineffectiveness of this product.

Pros:

-Made from all-natural ingredients that cause no side effects.

-Contains AMP (Aloe Mucilaginous Polysaccharide), which is widely known and recognized as an effective substance for treating many digestive disorders, including acid reflux syndrome.

Cons:

Consumer feedback on this product is mostly negative - please see below.

Side Effects of Digestinol:

None Noted

Customer Feedback / Comments:

"I've been using Digestinol for over a year now, I used it when it was molocure and have used the digestionol. I have felt no difference with the two. I use it for Ischemic Colitis. When I first started taking it, I was looking for something to help my son who has had digestive problems since birth. I took it for 2 months and felt so much better. It helped heal my colon. It is expensive, so I thought I would let my son try it. I stopped taking the product and my problem came right back. I started right away to take the product again and my problem has disapeared."
-- Actual Consumer Feedback from IBSGroup[dot]com

"I took this junk when I had ulcerative colitis. It didn't do anything but make me worse, after spending hundreds of dollars (that's what this "cure-all" costs per month!). I've since had a complete colectomy and am awaiting to have more surgery." -- Actual Consumer Feedback from IBSGroup[dot]com

"I'm here to tell you that they scammed me and the only two things I accomplished by taking this crap for several months was that I became more sick and had a lot less money! Don't let it happen to you." -- Actual Consumer Feedback from HealingWell[dot]com

Merchant / Manufacturer:

Digestinol Research through Digestinol[dot]com

Guarantee:

Vendor Website Says: *"When taken as directed, we guarantee this product to be the purest, most potent, and most effective in comparison to any "like" product available, at any price or your money back."* No time period is specified.
