Customer Feedback / Comments:

"hi this is my 3rd day on sherry brescia i have had no pain or bloating and i feel lighter you should download her free 4 day plan and give it ago you will feel great" -- Actual Consumer Feedback from IBSGroup[dot]org

"I was diagnosed with severe acid reflux and a hiatal hernia. My doctor prescribed PROTONIX but I did not want to take a stomach acid inhibitor, so I searched the web for a natural solution. I found Sherry Brescia's site, ordered the materials, and changed my eating habits. I've lost 20 pounds, have had no burning throat except when I "went off the wagon" and did not follow the prescribed food combinations, had more energy, slept better than ever (my wife says that I don't snore now), and just feel better about myself and my health." -- Actual Consumer Feedback from HealingWell[dot]com

"I can also vouch for this system. I only started it 3 months ago. I have GERD and some mild IBS and the only time I've had trouble with either is when I went off the plan. It also recommends limiting or eliminating sugary or refined foods." -- Actual Consumer Feedback from HealingWell[dot]com

"Just saw this thread. I have bought that great taste no pain book. I t really does help" -- Actual Consumer Feedback from HealingWell[dot]com

"There is a really good eating programme called "Great Taste No Pain" by Sherry Brescia. This can be bought via the internet. It is based on an alkaline diet and concentrates on food combining. A friend of mine was in severe pain and even went as far as hospital checks - he went on this programme for a few days and hasn't had pain since." -- Actual Consumer Feedback from WDDTY[dot]com
